SUMMARY

As a Flutter Developer with a year of hands-on experience, I specialize in building applications that seamlessly integrate with RESTful APIs and Firebase features, including Firebase Cloud Messaging. I am proficient in implementing design patterns such as MVVM, ensuring clean, readable.

EDUCATION

Bachelor's degree in computer science,
Faculty of Computer and Information Sciences – **Menoufia University**   *(Oct 2019–Jule 2023)*

Accumulative grade: Very Good (3.17 GPA).

SKILLS

- Git
- Dart
- Flutter
- Firebase
- Design Patterns (MVVM, Clean Architecture, etc.)
- Handle RESTful Apis
- FCM (Firebase Cloud Messaging)
- HTTP
- Local Notifications
- Google Maps
- Bloc
- Cubit
- Problem Solving
- Clean Code

PROJECTS

- **Fun Tourism**
    - This Flutter application is designed to streamline trip management. It allows users to create personalized accounts, plan their own trips, and follow other users. By joining trips created by others, users can share experiences and enjoy their journeys together.
    - GitHub Link
    - Overview link

- **Dashboard App**
  - This Flutter application has a beautiful design and responsive Ui for mobile, tablets and desktop platforms.
  - [GitHub Link]

- **Notes App**
  - Save Notes in device local storage using Hive Package. Beautiful design with animations.
  - [GitHub Link]

- **Book App**
  - View many book come from google book API with ability to navigate using URL launcher to read it.
